Class Descriptions

Water Exercise Use the natural resistance and buoyancy of water against your body to provide a wide variety of conditioning. Water's natural buoyancy, resistance, cooling effect and decreased joint impact make it an ideal exercise medium for seniors.

Aquaerobics This is a vigorous workout that offers modifications to fit all fitness levels and abilities. The instructor will help you strengthen your muscles and increase flexibility without the impact on your joints that you may experience on land. Groove to the music you love while you reach your fitness goals!

Aquafit & Strength This fun, shallow water workout will help you gain strength, increase lung capacity and improve balance by using work/rest intervals, buoyant & drag equipment and the resistance of the water. Start where you are and work at your own pace to meet your fitness goals.

Powerfit & Pilates Power up your water workout with this fast-paced shallow to deep water class! We like to mix it up with high-intensity intervals, endurance sets, strength training and more. Cool down using Hydro-Pilates principles to lengthen muscles and strengthen your core.

Mind'n'Motion In this safe and fun class, you'll improve strength, flexibility, memory and balance. While listening to "the oldies," move at your own pace and intensity for an enjoyable workout.

AquaZumba® Targeted for those looking to make a splash by adding a low-impact, high-energy aquatic exercise to their fitness routine. Aqua Zumba® blends the Zumba® philosophy with water resistance, for one pool party you shouldn't miss!

Deep Aquaerobics Aquaerobics but accomplished with a buoyancy belt in deep water to add extra core strength and balance to your workout with zero impact. Fun music pumped with motivation from the instructor to push yourself harder than you would otherwise!

Deep H2O Intervals Move it in the DEEP! Following a whole-body warm up you will pump up the power using various High Intensity Interval Training (HIIT) formats including Tabata, pyramids and more. You will work your core; improve cardiovascular fitness and burn calories. HIIT workouts have been shown to increase your metabolism and burn fat for 24 – 48 hours following your workout. Buoyant belts available – no swimming ability necessary but you should be comfortable in deep water.

The **SilverSneakers®**, **Silver&Fit®**, **At Your Best®** and **Optum Fitness Advantage® Programs** are for active older adults to those dealing with chronic conditions. Certain insurance carriers offer this facility benefit to their plan members who have Medicare A & B and a Supplement or Advantage plan. We are excited to offer these programs to seniors within our community. SilverSneakers® classes are open to all Fidalgo Pool & Fitness Center patrons..
